

VR-ENHANCED LEARNING MODULES

Edstutia has developed cutting-edge VR-enhanced learning modules on a variety of professional development topics for frontline associates all the way up to C-level executives. Learners will participate in a variety of simulations and scenarios based on experiential learning to reinforce and practice the subject matter. Each module includes four live 90-minute training sessions led by XR-certified subject matter experts. Onboarding and tech support are also included.

Propelling Diversity

Take your DEI initiatives beyond the compliance stage. Actively experience and practice DEI scenarios in a safe, immersive space.

Navigating Change

Understand change leadership frameworks and how to apply them to manage human and digital transformation in your organization.

Mindful Leadership

Understand and practice how to lead your team with compassion, flexibility, and authenticity in a safe and immersive environment.

Cross-Cultural Competence

Learn how to bridge self-awareness with global perspectives/values to appreciate and embrace cultural differences.

Our blended learning approach includes Zoom, VR, & our LMS

Session 1 - KNOW: Take stock of where you and your organization are

Session 2 - FEEL: Hands-on immersive experiences in VR

Session 3 - APPLY: Practice new skills in a low-risk environment

Session 4 - GROW: Live coaching and tangible deliverables
